## Description & Dimensions

A curious object with luminosity and poise, Minima Lightform 3 is a table lamp that softly illuminates any indoor space. The name Minima tells the story of its surface; its sinuous form is the minimum 3D surface between 2D curves. Crafted from a proprietary paper pulp composite, Minima's subtle tone of illumination results from graded filtration through its diaphanous skin.

Each lamp is made by hand at Patkau Studio in Vancouver.
